

Learning by Teaching: Family Math Prompts

Encourage your child to teach you what they're learning in math! Use these prompts to help them along the way.

Explain the...

Big Idea

- What is the problem asking us to do or find?
- What is this problem about?
- What kind of solution will this problem have?

Describe the...

Thought Process

- How do we get started thinking about the problem?
- What would be the different parts if we broke it down?
- Can we draw a picture or make a model to show it?

Overcome...

Obstacles

- What other method can we try?
- What do we think comes next?
- What do we know about this part?

Encourage...

Reflection

- What is another way we could have solved this?
- How are we sure this is correct?
- What is another example of this type of problem?
